The Insurer will indemnify the Insured against physical loss or damage to the insured property caused by:

- Fire, lightning, explosion or implosion, including damage caused by fire-fighting operations.
- Storm, cyclone, typhoon, tempest, hurricane, tornado, flood and inundation.
- Earthquake, volcanic eruption and other convulsions of nature (Building cover, as the extension has been opted).

8. Basis of Claim Settlement

Building (Reinstatement): the Insurer pays the cost of repairing or rebuilding the damaged portion to a condition substantially the same as, but not better than, its condition when new. Reinstatement must be carried out within 12 months of the loss; otherwise the claim is settled on market value (after depreciation).

Contents (Indemnity): loss is settled on the replacement cost of a similar item less depreciation, as per the table below. Clothing and personal effects are depreciated at a flat 25% irrespective of age.

Age of item	Electronics & appliances	Furniture & furnishings
Up to 1 year	10%	5%
1 to 2 years	20%	10%
2 to 3 years	30%	15%
3 to 5 years	40%	20%
Above 5 years	50% (maximum)	30% (maximum)

Jewellery, valuables and curios (Agreed Value): since each item is supported by a valuation certificate, a total loss is paid at the agreed value stated in the Valuation Schedule, without depreciation. Partial loss is paid at the reasonable cost of repair. Valuation certificates must be renewed every 3 years.

9. Under-insurance (Average Clause)

If, at the time of loss, the Sum Insured for Section 1 or Section 2 is less than **85%** of the actual value of the property, the Insured is considered to be their own insurer for the difference, and the claim will be reduced proportionately using the formula:

Claim payable = Assessed loss x (Sum Insured / Actual value at time of loss) - Deductible

Illustration 1 - Contents claim with depreciation

Step	Amount (Rs.)
Water leakage damages 2-year-old 65-inch TV; replacement cost of similar model	1,20,000
Less: depreciation for 2 to 3 years at 30%	(36,000)
Assessed loss	84,000
Average clause: contents SI 14,00,000 vs actual value 14,50,000 (96.5%, above 85%)	Not applied
Less: contents deductible	(5,000)
Claim payable	**79,000**

Illustration 2 - Building claim with under-insurance

Step	Amount (Rs.)
Fire damages kitchen and two rooms; assessed reinstatement cost of repair	6,00,000
Actual reinstatement value of building at time of loss (if construction cost rose to Rs. 3,000/sq ft)	48,40,000
Sum Insured as % of actual value: 37,76,000 / 48,40,000	78.0% (below 85%)
Proportionate claim: 6,00,000 x 78.0%	4,68,000
Less: building deductible	(10,000)
Claim payable	**4,58,000**

Tip: Review the Sum Insured every renewal, or opt for the Escalation Clause (up to 10% automatic annual increase) to avoid under-insurance.
